

**“One Belt One Road” International Network of Innovation and
Development Think Tanks Program ANSO BIDI School started its
fifth semester module 3 course successfully**

"The fifth semester third module of the ANSO BIDI School" was successfully held at 7:00 pm on 23th November in 2022 by the form of online meeting. It is supported by the Alliance of International Scientific Organizations (ANSO), Beijing Association for Science and Technology (BAST), University of Chinese Academy of Sciences (UCAS), SESC Service System Engineering Branch, SMSE Intelligent Decision Making Branch, CSTE Intelligent Decision Making Branch, IEEE SMC Society Social and Economic Security Technical Committee, IEEE System Council Analytics and Risk Technical Committee, and jointly organized by ANSO-BIDI, the School of Innovation and Entrepreneurship of UCAS, the Center for Environmental Economics of UCAS, and the Yuquan Think Tank. Professor Luis Seco, Director of the Mathematical Finance Program at the University of Toronto and Co-founder, President and CEO of Sigma Analysis & Management, gave a wonderful academic presentation entitled "Sustainability, Technology and Innovation". More than 60 participants from countries along the "Belt and Road" participated online.

In the presentation, Prof. Luis Seco firstly assessed the sustainability of business operation from three dimensions of environmental, social and corporate governance (ESG), and cited the case of "The Nyaliga Fire Project" to give a deep analysis to the participants. Next, Prof. Luis Seco introduced the background, methodology and application of "Dun & Bradstreet's ESG Rankings Dataset". Then, Prof. Luis Seco introduced the impact of climate risk on business and the measures to address it. Finally, Prof. Luis Seco recommended the "Climate Risk Reading Room" to the participants and showed the rich WEB, video resources and articles on climate risk.
